What is CSAW ?

[VIDEO of CSAW 2018](#)

- ✓ The Cyber Security Awareness Week (CSAW) is an **international cybersecurity event for students**
- ✓ Its objective is to bring together students of all levels of education (from high school to PhD students) on the field of cybersecurity
- ✓ CSAW includes competitions, conferences, as well as a forum, which provides a great opportunity to companies and institutions to promote themselves and exchange with participating students
- ✓ The qualifying events for each competition are held online and the finalists are then gathered for the CSAW event
